ABOUT ME

I'm a full-stack web developer who understands the process of building a web application from an idea to deployment. My main proficiency is a MERN stack (MongoDB, Express, React, Node), nevertheless, I'm familiar with Java (Spring), MySQL, and currently mastering cloud computing (AWS, Firebase). I am really excited to utilize technical knowledge to help your company become more successful.

SKILLS

JavaScript React Redux React Native Node.js Express HTML CSS Bootstrap
Material UI AWS Amplify Firebase MongoDB GraphQL MySQL Java Linux
